

Always choose Toshiba ribbons for Toshiba printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.

This commitment to quality and reliability is what you would expect from Toshiba as the biggest thermal transfer ribbon distributor in Europe.

Other approved ribbon types available

Standard applications	<ul style="list-style-type: none"> ● Wax ● Wax resin 	<ul style="list-style-type: none"> ● Super wax resin ● Full resin
Specialist resins for	<ul style="list-style-type: none"> ● Wash-care & textile labelling ● Harsh chemical and industrial uses 	<ul style="list-style-type: none"> ● Extreme automotive and aviation environments
